

Eiger BioPharmaceuticals to Present at Jefferies 2019 Global Healthcare Conference

PALO ALTO, Calif., May 30, 2019 – Eiger BioPharmaceuticals, Inc. (Nasdaq:EIGR), focused on the development and commercialization of targeted therapies for serious rare and ultra-rare diseases, today announced that David Cory, President and CEO, will present a corporate update at the Jefferies 2019 Global Healthcare Conference on June 6, 2019 from 3:00-3:25 PM ET in New York City. A breakout session will follow from 3:30-3:55 PM ET.

A live webcast of the presentation will be available on the Eiger BioPharmaceuticals website at www.eigerbio.com under the “Investors” tab. A replay of the webcast will be available approximately one hour following the completion of the live event.

Eiger will also host one-on-one meetings with investors.

About Eiger

Eiger is a late-stage biopharmaceutical company focused on the development and commercialization of a pipeline of first-in-class, well-characterized drugs for serious rare and ultra-rare diseases for patients with high unmet medical needs and for which no approved therapies exist.

The company’s lead program is in Phase 3, developing lonafarnib, a first-in-class prenylation inhibitor for the treatment of Hepatitis Delta Virus (HDV) infection. The company is also advancing peginterferon lambda, a first-in-class interferon, toward a Phase 3 study for the treatment of HDV. Eiger is preparing an NDA and MAA for lonafarnib to treat Hutchinson-Gilford Progeria Syndrome (HGPS or Progeria) and Progeroid Laminopathies with plans to file in 2019. For additional information about Eiger and its clinical programs, please visit www.eigerbio.com.
